PRODUCT HIGHLIGHTS SHEET

This Product Highlights Sheet only highlights the key features and risks of this unlisted capital market product. Investors are advised to request, read and understand the disclosure documents before deciding to invest.

BRIEF INFORMATION ON THE PRODUCT

1. What Is This Product About?

Product Type	Unlisted unit trust fund (open-ended)
Manager	BOS Wealth Management Malaysia Berhad 199501006861 (336059-U)
Trustee	CIMB Commerce Trustee Berhad 199401027349 (313031-A)

PRODUCT SUITABILITY

2. Who Is This Product Suitable For?

The Fund is suitable for investors who are seeking income[□] (in the form of income distribution) and potential capital growth.

[□] Income is in reference to the Fund's distribution, which could be in the form of cash or units.

Unit prices and distributions payable, if any, may go down as well as up. The investor may not get back the full amount invested and the principal amount invested may be at risk.

Please note that if you are a US Person, you are not eligible to subscribe to the Fund. We reserve the right to return your investment without advance notice if we become aware that you are a US Person who holds any Class(es) of the Fund.

KEY PRODUCT FEATURES

3. (a) What Am I Investing In?

Fund Category	Fixed income
Fund Type	Growth and income
Base Currency	MYR
Financial Year End	30 June
Distribution	Class BOS MYR Declaration of income distribution (if any) is at least once a year.
Issuance Date	2 October 2019
Initial offer price (Class BOS MYR)	RM1.0000

Note: The initial offer price is provided above is only for your reference. Please note that the Fund will have a daily NAV per unit which will be published at our website.

INVESTMENT OBJECTIVE

The Fund aims to deliver total return for its Unit Holder(s).

Notes:

- Any material change to the investment objective of the Fund would require Unit Holders' approval.
- 'total return' refers to income (in the form of income distribution) and potential capital growth.

INVESTMENT POLICY AND STRATEGY

The Fund adopts a conservative investment approach, where the stability of the Fund's NAV per unit is the top priority. Nevertheless, the Fund is not a passive fund as it may engage in active trading and dynamically adjust its portfolio to achieve its investment objective. Investment decision will be guided by the Manager's outlook on interest rate by taking into account various factors, such as inflation expectation, monetary policies as well as economic growth.

The Fund is expected to invest majority of its NAV in investments (i.e. fixed income securities, money market instruments and term deposits) with shorter-term maturity (i.e. up to 3 years), while the balance will be invested in investment with longer-term maturity (i.e. more than 3 years). Having said that, it will be up to the Manager to decide on the Fund's allocation between the investments with shorter-term and longer-term maturity. Take for example, if the market condition permits (i.e. optimistic outlook), the Manager may seize the opportunity to hold more of the investments with longer-term maturity in order to obtain higher yield.

On the selection of rated fixed income securities, the Fund will only purchase those with a minimum long-term credit rating of single 'A' rated by RAM (or an equivalent¹ long-term credit rating rated by other global or domestic bond-rating agencies²). Should the long-term credit rating of the fixed income securities held by the Fund is being downgraded, the Manager shall have full discretion to decide whether to hold or to sell the fixed income securities, but should not increase its holdings in such fixed income securities as long as their long-term credit rating is below the minimum long-term credit rating as mentioned above.

The Fund may opt to purchase unrated fixed income securities if the Manager is convinced that the purchase of such unrated fixed income securities is not expected to contribute significantly to the volatility of the Fund's NAV per unit. For efficiency and diversification purposes, the Fund may utilise collective investment scheme(s) to gain exposure in fixed income securities, and may have exposure in financial derivatives instruments for hedging purpose.

The Fund adopts a dynamic portfolio management where the Manager may adjust the Fund's exposure actively between different permitted investments for the purpose of optimising its risk-adjusted return.

To manage the Fund's risks, the Manager will regularly assess and monitor the Fund's investment holdings to ensure that the Fund's risk exposure is under control, and if necessary, to adjust its holdings so that the Fund will be able to operate within the relevant investment restrictions and limits while meeting its investment objective. The exposure in OTC derivatives will also be closely monitored. The Manager may unwind its position in an OTC derivative in the event of a downgrade in the rating of its issuer.

Note: The Fund is neither a capital guaranteed fund nor a capital protected fund.

Asset Allocation

Up to 100% in fixed income securities (i.e. corporate bonds, securities and instruments issued or guaranteed by governments and central banks), money market instruments and/or term deposits.

The balance, if any, in cash (i.e. cash kept at the Fund's trust account).

¹ By having their own proprietary rating systems and methodologies, credit rating granted by the respective credit rating agencies may vary. It will be up to the Manager to determine the equivalency of the credit rating granted by the respective credit rating agencies.

² Refers to S&P, Moody's, Fitch, MARC and any other credit rating agencies approved by the relevant regulators.

Performance Benchmark

Maybank Overnight Deposit Rate.

Note:

1. Maybank Overnight Deposit Rate is replacing 3-month KLIBOR to be the performance benchmark of the Fund. This is due to the potentially discontinuation of the Kuala Lumpur Interbank Offered Rate (KLIBOR) as a financial benchmark rate by Bank Negara Malaysia.
2. The performance benchmark is for comparison purpose only. You are advised that the risk profile of the Fund is different from the risk profile of the performance benchmark. It is available from the website: www.maybank2u.com.my on a daily basis. It will also be published as a comparison against the Fund's total return at least on a monthly basis in our publications and on our website.

3. (b) Who Am I Investing With?

Manager	BOS Wealth Management Malaysia Berhad 199501006861 (336059-U)
Trustee	CIMB Commerce Trustee Berhad 199401027349 (313031-A)
Trustee's Delegate	CIMB Bank Berhad 197201001799 (13491-P)
Auditors	PricewaterhouseCoopers PLT ('PWC') (LLP0014401-LCA & AF 1146)
Tax Advisers	Ernst & Young Tax Consultants Sdn Bhd 198901002487 (179793-K)

4. What Are The Possible Outcomes Of My Investment?

- The quantum of potential returns of the Fund would depend on the Fund's asset allocation decisions and performance of the underlying investments of the Fund.
- This is a non-guaranteed Fund and the investor may not get back the full amount invested and the principal amount invested may be at risk. Returns are also not fixed or guaranteed.

KEY RISKS

5. What Are The Key Risks Associated With This Product?

The following are the general risks associated with the **Fund**:

- **Inflation risk** – Inflation risk refers to the risk that an investor's investment in a unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.
- **Market risk** – Market risk refers to the possibility that an investment in a unit trust fund will lose value because of a general decline in the financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.
- **Manager risk** – This risk refers to the day-to-day management of a fund by its manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.
- **Regulatory risk** – Regulatory risk arises when a change of law(s) has a negative impact on a unit trust fund. For example, if capital controls are abruptly introduced and applicable to the fund (that is established to invest in foreign countries), then the fund may have difficulty to place its investments in foreign countries. Such constraint may render the fund to be no longer operational in the way that it was originally intended.

The following are the specific risks associated with the **Fund**:

- **Interest rate risk** – Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income securities. When interest rates rise, fixed income securities prices generally decline and this may lower the market value of the Fund's investment in fixed income securities. The reverse may apply when interest rates fall. In order to mitigate interest rate risk, the Manager will need to manage the fixed income portfolio taking into account the coupon rate and time to maturity of the fixed income securities. The change in interest rate environment may also have implication on the interest rates offered by term deposits and money market instruments. In a low interest rate environment, the Fund may have to accept term deposits and money market instruments that offer low interest rate. This will result in lower return for the Fund.
- **Credit & default risk** – Credit risk relates to the creditworthiness of the issuers of the fixed income securities and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the fixed income securities. In the case of rated fixed income securities, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a fixed income securities either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income securities. Both credit and default risk could adversely affect the value of the Fund should the Fund invest in fixed income securities which are subsequently downgraded and/or their issuers defaulting in payments or failing to make payments in a timely manner.

- **Country risk** – The Fund may invest in foreign investment and it may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the country in which the Fund invests in. For example, the deteriorating economic conditions of a country may adversely affect the value of the investments undertaken by the Fund in that country. This in turn may cause the NAV or NAV per unit of a Class to fall.
- **Currency risk** – As the Fund may consist of investments denominated in foreign currencies (i.e. non-MYR), the Fund will be exposed to currency risk. As a multi-class fund, currency risk is applicable at two levels:

a) **Currency risk at the Fund's portfolio level**

The impact of the exchange rate movement between the base currency of the Fund and the currency of its underlying investments may result in a depreciation of the value of the investments as expressed in the base currency of the Fund; and

b) **Currency risk at the class level**

The impact of the exchange rate movement between the base currency of the Fund and the currency of the respective Class(es) may result in a depreciation of the investor's holdings as expressed in the base currency of the Fund.

Note: Currency risk at the class level is not applicable to any Class(es) which are offered in the currency of MYR.

The Manager may utilise derivatives for currency hedging purpose. Currency hedging at the Fund's portfolio level (if any) is subject to the Manager's discretion. As for the respective Class(es), currency hedging (if any) depends on their respective currency hedging feature. For the avoidance of doubt, Class BOS MYR does not feature currency hedging.

- **Liquidity risk** - Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices, which may subsequently lead to investment loss to its unitholders. The Manager may (in consultation with the Trustee) seek temporary financing to meet redemption request, considering which is in the best interests of Unitholders before consider the suspending the dealing in the Fund's units. Please refer to Section 6.4 Suspension of Dealing in Units of the Prospectus for more details.

The investment manager exercises diligence in minimising the above risks to the Fund. However, it is not always possible to cover all investment risks in spite of best efforts as financial markets can be highly unpredictable. Investors are encouraged to consult their advisers such as financial/tax consultants, lawyers or bankers for a further understanding of these risks.

FEES AND CHARGES

6. What Are The Fees And Charges Involved?

Sales Charge	Up to 2.00% of the Fund's NAV per unit of the Class
Annual Management Fee	Up to 0.50% p.a. of the NAV of the Class
Annual Trustee Fee	0.04% p.a. of the NAV of the Fund calculated and accrued on a daily basis, subject to a minimum of RM8,400 p.a. (excluding foreign custodian fee and charges). The annual trustee fee is payable on a monthly basis.
Redemption Charge	There is no redemption charge imposed on unitholders of the Fund.
Switching Fee	Switching transaction may be subjected to the applicable difference in sales charge between the fund to be switched from and the fund to be switched into. Please refer to the Prospectus for the terms and conditions of the switching facility of the Fund.
Transfer Fee	There is no transfer fee imposed on unitholders of the Fund.

Note: By default, redemption and income distribution proceeds will be made via bank transfer. Request for cheque payment will be subjected to a fee. Kindly refer to the prevailing prospectus for more information. Despite the maximum fees and charges permitted by the deed, all current fees and charges are as disclosed above. All fees and charges quoted are subject to any applicable taxes and/or duties as may be imposed by the government or other authorities from time to time.

VALUATIONS AND EXITING FROM INVESTMENT

7. How Often Are Valuations Available?

- The valuation of the Fund's NAV is calculated once at the end of every³ Business Day. The Fund's NAV attributable to the Class(es) will then be calculated, and the daily NAV per unit of the Class(es) will be published on the next Business Day after the valuation (T+1).
- Fund prices will be published on BOSWM MY's website at www.boswealthmanagement.com.my.

³ The Fund's valuation point will fall on the next Business Day if the Fund has foreign exposure. Should that be the case, the NAV per unit of the Class(es) will only be published on T+2.

8. How Can I Exit From This Investment And What Are The Risks And Costs Involved?

- Investors can exit from the investment by completing the transaction form. The duly completed and accepted original transaction form must reach BOSWM MY's head office by 4.00 p.m. on any business day. BOSWM MY will repurchase units at the Fund's NAV per unit calculated at the end of that business day.
- The investor will receive the prevailing price per unit.
- Transaction forms received after 4.00 p.m. will be treated as having been received on the next business day.
- Payments will be made to investors within seven (7) business days (from the business day the redemption request is accepted).

Note: If an investor is a first-time investor with BOSWM MY, the investor is entitled to a cooling-off period of six (6) business days. The refund for every unit with regards to the cooling-off must be as follows:

- If the original price of a unit is higher than the price of a unit at the point of exercise* of the cooling-off right ("market price"), the market price at the point of cooling-off; or
- If the market price is higher than the original price, the original price at the point of cooling-off.
- The cooling-off proceeds (including the sale charge imposed on the day the units were purchased) will be refunded to you within seven (7) Business Days.

* forward pricing is applicable.

However, this is not applicable to staff of BOSWM MY and their immediate family members; and persons registered with a body approved by the Securities Commission Malaysia to deal in unit trusts.

FUND PERFORMANCE (for the financial year ended 30 June)

Source of fund performance: Lipper for Investment Management

Source of benchmark performance: Bloomberg & Bank Negara Malaysia www.bnm.gov.my

9. Portfolio Structure

	2023	2022	2021
Fixed Income Securities	37.17%	-	-
Cash & Liquid Assets	62.83%	100.00%	-
Remarks	The fixed income securities allocation of BOSWM Dynamic Income Fund increased to 37.17% as at 30 June 2023 due to net purchasing activities. Gradual increase in the fund's NAV allowed accumulation of bonds while ensuring sufficient portfolio diversification during the financial year in review.		

10. Performance Data

Total Annual Return

	1.7.2022 To 30.6.2023	1.7.2021 To 30.6.2022	1.7.2020 To 30.6.2021	2.10.2019 To 30.6.2020
BOSWM Dynamic Income Fund	3.29%	0.83%	-1.55%	1.57%
Maybank Overnight Deposit Rate	1.02%	2.02%	1.97%	2.02%

Average Annual Return

	1 Year's Period 1.7.2022 To 30.6.2023	3 Years' Period 1.7.2020 To 30.6.2023	Since Inception 2.10.2019 To 30.6.2023
BOSWM Dynamic Income Fund	3.29%	0.85%	1.11%
Maybank Overnight Deposit Rate	1.02%	0.52%	0.66%

11. Performance Chart

Total Annual Return

Average Annual Return

Basis of calculation and assumptions made in calculating the returns:

$$* \text{Percentage growth} = \frac{\text{NAV}_t - \text{NAV}_{t-1}}{\text{NAV}_{t-1}}$$

where t = current year
t-1 = previous year

Note: 3-month Kuala Lumpur Interbank Offered Rate will be replaced by Maybank Overnight Deposit Rate from 16 January 2023 (the Prospectus date) and will apply retrospectively on subsequent publication.

12. Distribution

	2023	2022	2021
Gross Distribution Per Unit (sen)	1.80	-	-
Net Distribution Per Unit (sen)	1.80	-	-

13. Unit Split

Not applicable.

14. Portfolio Turnover Ratio (PTR)

	2023	2022	2021
PTR (times)	0.37	-	0.65
Remarks	The PTR for the previous financial year was nil as the Fund only had placements with licensed financial institutions.		

Past performance of the Fund is not an indication of its future performance.
